STUDENT FINANCIAL AID INFORMATION

RGV College is an accredited institution and is eligible to offer several types of financial aid assistance. Financial assistance consists of Federal Student Aid which is financial aid from the federal government to help you pay for education expenses at an eligible college or career school. Grants and loans are types of federal student aid, and you may apply for this type of aid by completing the Free Application for Federal Student Aid (FAFSA) located on the following website <https://studentaid.gov/h/apply-for-aid/fafsa>

RGV College is approved for the following federal grant and loan programs:

Federal Pell Grant – Grants are awarded on the basis of financial aid need and do not have to be repaid.

Federal Supplemental Educational Opportunity Grant (FSEOG) - is a grant awarded to undergraduate students with exceptional financial need and do not have to be repaid. Students with the lowest Expected Family Contribution (EFC) are awarded FSEOG before students with higher EFCs.

Federal Direct Subsidized Loan – Loans from this program are awarded to students with financial need. This loan is subsidized because the federal government pays the interest while the student is in school and during the grace period (the first six months after leaving school or dropping to less than half time enrollment status).

Federal Unsubsidized Loan – The unsubsidized loan is not based on financial need and is available to all eligible students, regardless of income. This loan is unsubsidized because the student is responsible for paying all interest due. There is no federal interest subsidy for the loan. Interest accrues immediately upon disbursement. Borrowers may elect to pay accrued interest on a monthly or quarterly basis or have it added back to the principal balance in a process called capitalization.

Federal Parent Plus Loans- A parent may borrow up to the annual cost of education minus any estimated financial aid received by the student. The application approval process includes a standard credit analysis for all parent borrowers. The repayment period for the parent borrowers begins on the day the loan is fully disbursed. The first payment of principal and interest is due within 60 days after the final loan disbursement is made.

Federal Work-Study – Provides part-time jobs for undergraduate and graduate students with financial need, allowing them to earn money to help pay education expenses. The program encourages community service work and work related to the student's course of study. Work-study is available to full-time and part-time students, check with your school's financial aid office to find out more information.

To determine eligibility for Title IV Funds, students must:

- Comply with our Satisfactory Academic Progress (SAP) policy included in the school catalog.
- Not be in default on any loans made under any Title IV, HEA Loan program.
- Must not have obtained loan amounts that exceed annual or aggregate loan limits under any Title IV, HEA Loan program.
- Not liable for any grant overpayment.
- Be enrolled at least halftime to receive assistance from the Direct Loan Program. (The Pell Grant program does not require half time enrollment, but the student's enrollment status does affect the amount of Pell a student may receive.)
- For Title IV purposes, students who have successfully completed 225 clock hours that are applicable to a degree or certificate offered by our school. These credits and hours are not Title IV eligible and the remaining program hours must be prorated if the

program is a certificate program offered in hours and may also affect a credit hour program with a proration. Although, all prior education will be reviewed upon enrollment for each individual student. Credit may be granted at the discretion of the Director of Admissions.

- Must provide a photo ID and Social Security card so a copy can be taken.
- Must make financial arrangements with Financial Aid Office in regard to FAFSA application, scholarships and/or cash payment plan prior to enrolling.

NET PRICE CALCULATOR

The Net Price is an estimate of the actual cost that a student and his/her family need to pay each year to cover education expenses for the student to attend a particular school. Net price is determined by taking the institution's cost of attendance and subtracting any grants and scholarships for which the student may be eligible.

The Net Price Calculator is a tool that allows current and prospective students, families, and other consumers to estimate the net price of attending a particular college or career school. The Net Price Calculator for RGV College can be located on the institute website at <https://www.rgvcollege.edu/net-price-calculator.asp>

ELIGIBILITY AND AWARD DETERMINATION AND DISBURSEMENT

Financial aid assistance is available to prospective students wishing to enroll at RGV College. The Financial Aid Office encourages you to apply for financial aid by the enrollment deadline. You may apply for financial assistance before your acceptance or enrollment into the program. To apply for financial assistance students must complete and submit a Free Application for Federal Student Aid (FAFSA) by using our Federal School Code **04193000**. Schedule an appointment to visit with a Financial Aid Advisor 72 hours after submitting the FAFSA to discuss financial aid eligibility.

Eligibility for financial aid is determined by the Expected Family Contribution (EFC) that is calculated based on the information you submit on the FAFSA. Need-based aid eligibility is determined by subtracting the EFC from the Cost of Attendance (COA). Students with no financial need are often eligible for non-need-based student and parent loans.

Cost of Attendance

The Cost of Attendance (COA) is just an estimate and includes ALL expenses to attend RGV College for one year, not just expenses paid directly to the school. The COA includes average tuition/fees, books and supplies, room and board, personal expenses, transportation expenses. A listing of Tuition and Fees is located on page 37 of this manual.

Direct Costs

Direct costs are those costs paid directly to your student account ledger at RGV College. Direct costs are different from the estimated Cost of Attendance, which is an estimate of expenses and includes items not paid directly to the school. Direct costs only include tuition/fees, room and board and will vary depending on things such as whether you attend full or part-time.

Net Cost

Net cost is the amount of direct costs you must pay out-of-pocket that are not covered by your financial aid after all financial aid has been applied to your account. Your net cost is always lower than the Cost of Attendance and in many cases, lower or nothing.

Financial Aid Package

During the Financial Aid interview, the Financial Aid Advisor will determine the total amount of financial aid (federal and nonfederal) a student will be eligible to receive during their enrollment at RGV College. The Financial Aid Advisor combines various forms of aid into a "Financial Aid Package" to help meet the student's educational costs. The award amounts listed on the Financial Aid Package are subject to be changed dependent on the student providing additional documentation by the set deadline.

CONFLICTING INFORMATION/SELECTED FOR VERIFICATION

Verification is the confirmation through documentation that the information provided on a student's Free Application for Federal Student Aid (FAFSA) is correct. The federal government requires colleges and universities to verify or confirm the data reported by students and their parent(s) on the FAFSA. The verification process ensures that eligible students receive all the financial aid to which they are entitled and prevents ineligible students from receiving financial aid to which they are not entitled.

You may be selected for verification either by the federal processor or the Financial Aid Advisor. If you are selected for verification by the federal processor, there will be an asterisk next to your Expected Family Contribution (EFC) on your Student Aid Report (SAR). If you are selected for verification, the Financial Aid Advisor will contact you by telephone and instruct you on steps to follow to resolve the conflicting information or provide you with the proper documentation to turn in to the FAA.

The main reason for being selected for verification includes that you were chosen randomly, the FAFSA you submitted was incomplete, your FAFSA contains estimated information or the data you provided on the FAFSA is inconsistent. Verification is a federal regulation. Students who are selected for verification are not being punished; rather, verification prevents ineligible students from receiving aid by reporting false information and ensures that eligible students receive all of the aid for which they are qualified.

If you are selected for verification, you must comply with the following documentation:

DEPENDENT STUDENTS

- 1) Make a correction on the SAR to link the student's and parent's federal income tax return information, or
- 2) Provide a copy of the student's and parent's federal income tax transcripts (for the tax year prior to the current aid year)
- 3) Dependent verification worksheet provided by the FAA.
- 4) Parent asset worksheet provided by FAA (if business income, investments and/or rental property is listed on tax transcripts)

INDEPENDENT STUDENTS

- 1) Make a correction on the SAR to link the student's (and spouses, if applicable) federal income tax return information, or
- 2) Provide a copy of the student's (and spouses, if applicable) federal income tax transcripts (for the tax year prior to the current aid year)
- 3) Independent verification worksheet provided by the FAA.

Please note that additional documentation may be requested at the FAA's discretion. You will be advised in person or by telephone if additional documents are required. It is your responsibility to check your requirements and submit all documentation to the FAO by the due date given by your Financial Aid Advisor.

Do not wait to submit your documents. All documentation required must be turned in in-person with the Financial Aid Advisor.

Once the FAO has received all the required verification documents, the Financial Aid Advisor will begin the verification process and confirm that no or if any changes will be made to the initial award amounts listed on the Financial Aid Package.

The verification process is a federal regulation and must be completed for a student to receive federal aid, as well as any state or institutional aid. If you do not wish to complete the verification process and therefore not receive financial aid, please notify the FAA in person so that we can update your status.

AWARD LETTERS

The Financial Aid Office begins to send award letters to all students one day before the awards are posted on the Student Account Ledger to pay for tuition and fees charges. We reserve the right to modify financial aid awards at any time due to changes on your financial aid application, in your financial eligibility, in program terms, in the amount of available funding and/or due to coordination with other resources you receive.

Accepting financial aid awards entails certain rights and responsibilities. When you are awarded financial aid, it is critical that you read and understand the terms and conditions. We strongly encourage you to learn as much as you can about the aid you are accepting and to know in advance what is expected of you in terms of your enrollment and academic progress.

Grants and institutional scholarships are automatically accepted for all students. Remember that you are able to accept partial amounts of loans, but loans will always disburse in two parts. If you want to reduce or decline a loan **after** the funds have disbursed, you will need to do it in writing by visiting a Financial Aid Advisor at the Financial Aid Office.

DISBURSEMENT OF FINANCIAL AID

Financial aid is disbursed to students three (3) days after the first day of instruction. Before your aid can be disbursed to you, you must complete the requirement listed below:

- 1) Accept your Aid;
- 2) Satisfy all outstanding requirements;
- 3) Be enrolled full-time or at least half-time;
- 4) Loan Promissory Note and Entrance Counseling.

Grants, scholarship and loans

Grants, scholarships, and loans administered by the Financial Aid Office are applied directly to your Student Ledger Account to pay for charges for tuition and fees.

Outside Scholarships

Outside scholarships are received and payable directly to the school and are disbursed directly to your Student Ledger Account just like any other form of financial aid.

Refunds

If you have financial aid funds that exceed the charges on your RGV College account at the time of disbursement, you will receive a refund, which may be used to pay other education related expenses (Note: if subsequent charges are made to your account, you are responsible for paying them. You can get a report of your student account by visiting the Student Portal located on the school's website or a representative from the Business Office at the school.) Refunds will be issued in the form of a paper check that will need to be picked up at the Business Office.

If you have a negative balance on your student ledger account that means you have a credit balance, and a refund will be issued to you. You will know that your refund has been generated when the negative credit balance goes to a zero balance and you see a transaction posted on your student account ledger that reads, "Refund Student Credit Balance". The institution has 14 days to issue the paper check to you.

Important Information about Refunds

- 1) If your parents are borrowing through the PLUS loan program, they may elect to have any excess funds refunded either to them or to you.
- 2) Some types of aid can only be used to pay for certain types of charges. Therefore, you could receive a refund even if you have outstanding charges on your student ledger account from the current or previous payment period. You are responsible for paying the balance on your account if one remains even after you receive the financial aid refund.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT NOTICE (FERPA)

Confidentiality of Student Educational Records

The Family Educational Rights and Privacy Act ("FERPA") of 1974, as amended, is a federal law governing the privacy of personally identifiable information in student educational records that provides specific rights to students with respect to those records. A student is any person who attends or has attended the College. Education records are any records (in handwriting, print, tapes, film, computer or other medium) maintained by the College or an agent of the College that are directly related to the student. Education records include financial aid, academic, disciplinary and health records, and other personally identifiable information.

A student has the following rights: to inspect and review his or her educational records; to request an amendment to a record that the student believes is inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA; to provide written consent before the College discloses personally identifiable information from the student's education records, except to the extent that FERPA authorizes disclosure without consent; and to file a complaint with the Family Policy Compliance Office of the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA. In accordance with FERPA, the College provides annual notice to students regarding these rights.

Students have the right to provide written consent before the College discloses personally identifiable information (PII) from students' education records, except to the extent that FERPA authorizes disclosure without consent. There are several exceptions to this non-disclosure policy, including one for health or safety emergencies. The law permits the College to disclose otherwise private and confidential information from an education record to appropriate parties in an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals. Appropriate parties may include school officials, parents, law enforcement authorities, emergency responders, public health officials, medical personnel, and other members of the community.

The College is permitted, with or without a student's consent, to inform parents when their student has violated any law or College policy regarding the use or possession of alcohol or a controlled substance if the student is not yet 21 years of age. The College is permitted to disclose to anyone the results of a disciplinary proceeding conducted against a student who is an alleged perpetrator of a crime of violence or a non-forcible sex offense if it is determined that the student committed a violation of the College's own rules or policies with respect to such crime or offense. In any disciplinary proceeding alleging a crime of violence or non-forcible sex offense, both the accuser and the accused will be informed of the results and any sanction imposed against the accused.

The College is permitted to disclose all education records, including disciplinary records, to another institution at which a student seeks or intends to enroll if that information is related to the student's enrollment or transfer; this includes but is not limited to updated or corrected information.

The College discloses education records without a student's prior written consent under the FERPA exception for disclosure to school officials with a legitimate educational interest in the records. A school official is a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including Safety and Security staff and Student Health Center staff); a person or company with whom the College has contracted as its agent to provide a service instead of using College employees or officials (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest in the educational record if the official needs to review the record in order to fulfill his or her job-related responsibilities.

Disclosure without consent is permitted when the College is returning records to the apparent creator (e.g., of a transcript or letter) to verify authenticity. Disclosure without consent is permitted to comply with a judicial order or lawfully issued subpoena, provided the College makes a reasonable effort to notify the student of the order or subpoena prior to release unless the subpoena specifies that notice is prohibited. Disclosure without consent is permitted to lending institutions in connection with an application for or receipt of financial aid. Disclosure without consent is permitted to Veterans Administration officials.

Personally Identifiable Information (PII)

As of January 3, 2012, the U.S. Department of Education's FERPA regulations expand the circumstances under which your education records and personally identifiable information (PII) contained in such records — including your Social Security Number, grades, or other private information — may be accessed without your consent. First, the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local education authorities ("Federal and State Authorities") may allow access to your records and PII without your consent to any third party designated by a Federal or State Authority to evaluate a federal- or state-supported education program. The evaluation may relate to any program that is "principally engaged in the provision of education," such as early childhood education and job training, as well as any program that is administered by an education agency or institution. Second, Federal and State Authorities may allow access to your education records and PII without your consent to researchers performing certain types of studies, in certain cases even when we object to or do not request such research. Federal and State Authorities must obtain certain use-restriction and data security promises from the entities that they authorize to receive your PII, but the Authorities need not maintain direct control over such entities. In addition, in connection with Statewide Longitudinal Data Systems, State Authorities may collect, compile, permanently retain, and share without your consent PII from your education records, and they may track your participation in education and other programs by linking such PII to other personal information about you that they obtain from other Federal or State data sources, including workforce development, unemployment insurance, child welfare, juvenile justice, military service, and migrant student records systems.

A student has the right to block the release of directory information. Directory information is student data not generally considered harmful or an invasion of privacy if disclosed; the College, at its discretion, may release directory information. Currently, directory information is limited to the following: name; address (local and permanent); telephone listing (local and permanent); e-mail address; date and place of birth; major field of study; class year; participation in officially recognized activities and sports; height/weight of members of athletic teams; enrollment status (e.g., full-time or part-time); dates of attendance; degrees and awards received; and previous education institutions attended. A student may, to the extent permitted by FERPA, block the release of directory information by filing timely, written notice with the Office of the Registrar.

All personally identifiable information not included as directory information is confidential. That information includes, but is not limited to, the following: name of a student's parent(s) or other family members; address of a student's family; a personal identifier such as social security number or student number; race/ethnicity; gender; a list of personal characteristics; academic evaluations and grades; transcripts and other academic records; scores on tests required for a new student; and a student's class schedule.

A student who wishes to authorize disclosure of confidential information to parents/guardians or any other designated individual, institution or entity, must complete an [*Access to Educational Records and Student Information Form*](#) during the enrollment process with the Admissions Department. Once the appropriate written authorization by the student is received in this office, designated individuals may be informed of the student's status at the College with respect to grades, academic standing, and financial obligations; this authorization remains in effect for as long as the student is enrolled at the College. If at any time after submission of the form the student wishes to revoke consent or modify the list of individuals, institutions or entities authorized to receive confidential information, a new authorization form must be completed and submitted to the Office of the Registrar.

A personal record kept by a faculty or staff member if it is kept in the sole possession of the maker of the record, is not accessible or revealed to any other person except a temporary substitute for the maker of the record and is not used for purposes other than a memory or reference tool, is not an educational record. Grades on peer-graded tests or assignments before they are collected and recorded by a faculty member are not educational records. A record created and maintained by the Office of Safety and Security for law enforcement purposes is not an educational record. An employment record of a person whose employment is not contingent on the fact that he or she is a student is not an educational record.

Health Insurance Portability and Accountability Act (HIPAA)

A record made or maintained by a physician, psychiatrist, psychologist or other recognized professional or paraprofessional if the records are used only for treatment of a student and made available only to those persons providing the treatment is not an educational record (other laws protect the confidentiality of medical or treatment records). An alumni record that contains information about a student after he or she is no longer in attendance at the College and that does not relate to the person as a student is not an educational record.

Students may obtain more detailed information about FERPA, including the procedures for exercising their rights, in the Office of the Compliance Director.

Complaints concerning alleged failures by the College to comply with the requirements of FERPA may be filed with the U.S. Department of Education. The name and address of the office that administers FERPA are:

Family Policy Compliance Office

Treatment of Return of Title IV Funds (R2T4) -Requirements of 34 CFR 668.22

The law and regulations are very specific about how the school must determine the amount of federal student aid (Title IV) program assistance you have earned and may retain if you withdraw from school. The Title IV programs that are covered include: Federal Pell Grant, Iraqi Afghanistan Service Grants, Federal Direct Stafford Loans and Federal Direct PLUS Loans.

When you withdraw during your payment period or period of enrollment (your school can define these for you and tell you which one applies to you), if you received (or your school or parent received on your behalf) less aid than you earned (based on one of the federal formulas), you may be able to receive those additional funds. If you received more aid than you earned, then the excess amount must be returned to the program (by the school and/or by you).

The amount of assistance that you have earned is determined by a formula to calculate the prorated basis. For example, if you completed 30% of your payment period or period of enrollment, then you earn 30% of the aid you were originally scheduled to receive. However, once you have completed more than 60% of the payment period or period of enrollment, you are considered to have earned all the assistance that you were scheduled to receive for that period.

If you did not receive all of the funds that you earned, then you may be due a post-withdrawal disbursement. If your post-withdrawal disbursement includes loan funds, then the school must get your permission before the loan funds can be disbursed to you. You may choose to decline some or all of the loan funds so that you do not incur additional debt. Your school may automatically apply all or a portion of your post-withdrawal disbursement of grant aid funds to outstanding tuition, fees, books and supplies (if billed separately by the school) and room and board charges (if contracted with the school). However, the school needs your permission to use the post-withdrawal grant aid disbursement for all other non-education related school charges. If you do not give your permission for the school to apply aid funds to other education related school charges (some schools ask for this authorization when you enroll), then you will be offered the funds. However, it may be in your best interest to give permission to allow the school to apply aid funds to other incurred charges in order to reduce debt at the school.

There may be some Title IV funds that you were scheduled to receive but cannot be disbursed to you once you withdraw because of other Title IV eligibility requirements. For example, if you are a first-time, first-year undergraduate, you will not be eligible to receive any Federal Stafford loan funds that you would have received had you remained enrolled past the 30th day.

If you receive (or your school or parents receive on your behalf) excess Title IV program funds that must be returned, the return must be a portion of the excess equal to the lesser of:

1. Your institutional charges multiply by the unearned percentage of your funds, or
2. The entire amount of excess funds.

A return of funds is required even if the school did not retain this amount of your aid funds.

If your school is not required to return all of the excess funds (e.g., some of excess aid was money that was provided directly to you as a stipend), then you must return the remaining amount.

- Any loan funds that must be returned is accomplished as you (or your parent for a Parent-PLUS Loan) repay the loan in accordance with the terms of the promissory note. That is, you make scheduled payments to the holder of the loan over a period of time.
- Any amount of unearned grant aid funds that you must return is called an overpayment. The maximum amount of a grant overpayment that must be repaid is limited to one-half of the grant funds you received or were scheduled to receive. If you are required to return unearned grant aid funds, you must make arrangements with your school, or the Department of Education to return these funds.

If the school returns federal student (Title IV) aid funds on your behalf (e.g., some of excess aid was money that was provided directly to you as a stipend), then your school may also pass that charge on to you for any Title IV, HEA program funds that they were required to return.

The requirements for Title IV program funds when you withdraw are separate from any refund policy that your school may have. Therefore, you may still owe funds to the school to cover unpaid institutional charges. If you do not already know what your school's refund policy is, you can ask your school for a copy. Your school can also provide you with the requirements and procedures for officially withdrawing from school.

If you have questions about your federal student (Title IV) aid program funds, you can call the Federal Student Aid Information Center at 1-800-4-FEDAID (1-800-433-3243). TTY users may call 1-800-730-8913. Information is also available on Student Aid on the Web at <https://studentaid.gov/>.

Campus Security Crime Prevention Information

The Jeanne Clery Act requires that all institutions of higher education publish an annual report of security policies and crime statistics. Information contained in this report was also solicited from the local police department for the purpose of identifying crimes that occurred on the city streets and property adjacent to Rio Grande Valley College. The school prepares this report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act (Clery Act). This report is prepared in cooperation with local law enforcement agencies. Nothing in the law shall be construed to permit a school to intimidate, threaten, coerce, or otherwise discriminate against any individual with respect to the implementation of the Clery Act.

This report is made available to all employees, current and prospective students on the institute's website <https://www.rgvcollege.edu/files/Annual-Security-Disclosure.pdf> for a printed copy of this report visit with the Director of Compliance. The annual report is published by October 1st of each year and must contain certain crime statistics for the most recent year reporting period. In addition to the report Rio Grande Valley College reports its crime statistics to the Department of Education, which posts the information to their website at <https://ope.ed.gov/campussafety/#/institution/details>.

RGV College policies and procedures have been in force to comply with The Violence Against Women Act (VAWA) in compliance with the requirements set forth by The Violence Against Women Act (VAWA) of 1994, and its reauthorization in 2000, 2005 and again in 2013.

The Consumer Information is a Guide that provides updates on specific policies. These policies are made available to new employees and to students upon enrolling. Training is provided to current employees on an ongoing, yearly basis. Resources and contact information for organizations that provide professional assistance are provided throughout this section of the Consumer Information Guide.

Emergency Response and Evacuation Procedures

In the event of emergencies such as health-related, threat, fire, explosion, chemical release or other related threats, the Campus Security Personnel at **RGV College** will issue an alert in a timely manner to the school community via the school emergency notification system. The Campus Security Personnel is also responsible for communicating with the local police department, ambulance, fire fighters and other response agencies by dialing **911**. Campus safety alerts can be distributed in various ways, as deemed appropriate for the situation. Most commonly, upon the confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students, faculty and staff, an announcement will be sent to the school community in multi modal format (Intercom Phone System) with the **Emergency Response Codes**.

In the event of an actual or threatened safety or security incident, it is imperative that students, faculty and staff stay calm, maintain control and strive for their safety and that of other fellow students, faculty and staff.

The following **Emergency Response Codes** will be utilized at Rio Grande Valley College:

| Emergency Codes | |

 - If you do discover a fire, utilize the R.A.C.E. Drill.
Rescue – Move any visitor/student in immediate danger to the nearest safe location
Alarm – Activate the nearest fire pull alarm station
Contain – Confine the fire (close door of affected room/area)
Extinguish/Evacuate – If a fire is small and confined to its area of origin, extinguish it.
- In the case of a fire in the facility, the person who finds the fire will follow the R.A.C.E and P.A.S.S. process and either call 911-Fire Department or call the receptionist to make the call.
- Always remain calm
- Ensure electrical equipment is operating correctly. An electrical spark could cause a fire.
- Smoking is not permitted within the school.
- All employees have a shared responsibility to politely inform any visitors seen smoking inside the school of our non-smoking policy.
- Report all fires, no matter how small.

2) **P.A.S.S. Drill**

- Rio Grande Valley College advocates the use of the P.A.S.S. fire extinguisher.
- If you discover a fire, use the P.A.S.S. Drill.
 - P Pull the pin between the two hands
 - A Aim the nozzle at the base of the fire
 - S Squeeze the handles together
 - S Sweep from side-to-side

Drill explanations will be placed on employees and students ID badges for quick reference.

The Campus Security Supervisor will be the designated person to the following responsibilities:

- ✓ Obtain contact information of nearest relative for victim to notify them of the situation,
- ✓ Ensure that all firefighting equipment is inspected on a regular basis to ensure that the equipment is serviceable and ready for use,
- ✓ Ensuring that first aid supplies are well stocked and available.
- ✓ Provide training to all students and employees on reporting emergency procedures.
- ✓ Location and the use firefighting equipment.
- ✓ Evacuation procedures

The Campus Security Supervisor is responsible for the annual review of the existing Emergency Response program to determine areas of needed improvement. This review must be documented, and any changes noted will be updated on the written program. Plan updates can be made as a result of drills and tests indicating deficiencies in the program.

Sexual Assault and Related Crimes

In the event of a sexual assault or domestic violence, please be aware of the following:

- It is important to preserve any evidence of the assault (do not drink, bathe, change clothing, or comb hair, as this may destroy evidence that may be needed to prosecute the offender)
- Go to a place where it is safe from further attack and notify the police.
- Obtain immediate medical attention.
- Seek professional counseling.

Sexual assaults (criminal offenses) on campus will be reported immediately to the Campus Security Supervisor, who will report it to (911) emergency and police units. The person who was victimized will be encouraged to seek counseling at a rape crisis center and to maintain all physical evidence until such a time as that person can be properly transported to a hospital or rape crisis center for proper treatment. This institution has zero tolerance of such assault; the violation of this policy by students or employees may result in expulsion, termination and/or arrests, while investigations are being followed. Victims of sexual assault also have the option of notifying local law enforcement. In addition, the school will provide information on off-campus agencies that provide services to victims of a sex offense. Local or state organizations that provide services to victims of sex offenses include:

- www.city-data.com/so/Texas.html
- <https://securesite.dps.texas.gov/DpsWebsite/index.aspx>
- www.homefacts.com/offenders/Texas.html

The school encourages students and employees to take advantage of the materials and programs that promote awareness of rape, acquaintance rape, and other forcible and non-forcible sex offenses available through the school and/or local community agencies. Information about such materials and programs is available in our informational boards located in the student lounge and resource center.

Registered Sex Offenders

The Jacob Wetterling Act requires states to obtain information concerning registered sex offenders' enrollment or employment at institutions of higher education. Those seeking to obtain information about registered sex offenders should visit the following website: [United States Department of Justice National Sex Offender Public Website \(nsopw.gov\)](http://www.nsopw.gov) Further, to the extent the State notifies an educational institution of information concerning registered sex offenders, the Family Educational Rights and Privacy Act (FERPA) does not prevent educational institutions from disclosing such information.

As per of the Crime Control and Law Enforcement Act of 1994, the institution is required to make the following link: <http://www.homefacts.com/offenders/Texas/Hidalgo-County.html> available to the campus community where information can be accessed regarding sex offenders.

Students and employees should refer to the following person or agency when reporting or seeking help on a criminal incident. Please note that any emergency that requires immediate attention should not be waited upon on to report to the Campus Security Supervisor but rather contact the appropriate agency by calling (911).

Violence Against Women Reauthorization Act (VAWA)

In compliance with the requirements set forth by The Violence Against Women Act (VAWA) of 1994, and its reauthorization in 2000, 2005, 2013, and signed into law in 2022 as part of the Omnibus appropriations package we are providing you with information of Rio Grande Valley College Violence Against Women Act policies and procedures.

This information is to provide Prevention and Awareness to Violence Against Women. This information applies to employees and incoming students. Please read over these policies carefully.

If you have any questions or concerns about these policies, or if you would like to provide additional input, please contact the CEO/College President or the Director of Compliance.

RGV Career's goal is to reduce risk, by providing annual awareness of VAWA, providing you a safe working and learning environment. We hope that these policies will work towards that goal.

In 1994 Congress passed the Violence Against Women Act (VAWA) in recognition of the severity of crimes associated with domestic violence, sexual assault, and stalking. This Act emerged from the efforts of a broad, grassroots coalition of advocates and survivors who informed the work of Congress. In the two decades prior to VAWA, a movement had grown within the US to respond appropriately to violent crimes or offenses against women. Rape crisis centers and women's shelters were established in localities, state and local laws have changed. However, the progress had been uneven around the country. VAWA was born out of the need for a national solution. This Act enhances the investigation and prosecution of violent crimes against women.

Created in 1995, OVW (Office of Violence Against Women) administers financial and technical assistance to communities across the country that are developing programs, policies and practices aimed at ending domestic violence, dating violence, sexual assault and stalking.

Currently, OVW administers four formula-based and 20 discretionary grant programs, established under VAWA and subsequent legislation. The four formula programs include STOP (Services, Training, Officers, Prosecutors), SASP (Sexual Assault Services Program), State Coalitions and Tribal Coalitions. The 20 discretionary programs work to support victims and hold perpetrators accountable through promoting and coordinated community response. Funding is provided to local and state and tribal governments, courts, non-profit organizations, community-based organizations, secondary schools, institutions of higher education and state and tribal coalitions. These entities work toward developing more effective responses to violence against women through activities that include direct services, crisis intervention, transitional housing, legal assistance to victims, court improvement and training for law enforcement and courts. They also work with specific populations such as elder victims, or persons with disabilities, college students, teens, culturally and linguistically specific populations. Additionally, as funding allows, OVW funds special initiatives in responses to areas of special need. These initiatives dedicate resources to develop enhancement in challenging areas. They enable OVW to explore innovations in the violence against women field and share knowledge that can be replicated nationwide.

Since its inception, OVW has been awarded over \$6 billion in grants and cooperative agreements and has launched a multifaceted approach to implementing VAWA. By forgoing state, local and tribal partnerships among police, prosecutors, judges, victim advocates, health care providers, faith leaders, and other, OVW grant programs help provide victims with the protection and services they need to pursue safe and healthy lives while simultaneously enabling communities to hold offenders accountable for their violence. For more information on the Office of Violence Against Women (OVW), visit their website at <http://www.justice.gov/ovw/about-office>

Below is a table that outlines VAWA statistics for the past three years.

Reporting Crime Confidentially

Victims and/or witnesses are encouraged to speak to any staff member pertaining to incidents or potential incidents of violence/crime against women that may have occurred within or out of the school premises. Reporting of such crime is kept confidential, and the school treats all reported incidents without bias towards the persons involved. The names are not disclosed in the school's Annual Report Statistics disclosure, yet the reported crime will be a part of the school's Daily Incident Log records. The Daily Incident Log includes the date, time, location, incident reported and disposition of incident and the name of the person who took the report. This report must be documented within two (2) business days after it is reported to the school's official, unless that disclosure is prohibited by law, would endanger the confidentiality of the victim. Reporting “Unfounded” Crimes to the Annual Report Statistics

When there is no truth to the report, RGV College does not have to report it on its Annual Statistics Report, due to lack of reason or fact. If a complaint is reported, but the victim does not cooperate with school officials nor with local authorities, the investigation may be closed and considered unfounded, due to lack of support of the reported crime.

Updated-Definition of “Rape” as per FBI

The new definition is more inclusive, better reflects state criminal codes and focuses on the various forms of sexual penetration understood to be rape.

The revised definition of rape is: Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim. Attempts or assaults to commit rape are also included; however, statutory rape and incest are excluded.

The revised definition includes any gender of victim or perpetrator, and includes instances in which the victim is incapable of giving consent because of temporary or permanent mental or physical incapacity, including due to the influence of drugs or alcohol or because of age. The ability of the victim to give consent must be determined in accordance with state statute. Physical resistance from the victim is not required to demonstrate lack of consent. The new definition does not change federal or state criminal codes or impact charging and prosecution on the local level.

Bystander Intervention

People have a responsibility not to sexually assault other people. That is absolutely certain. At the same time, as bystanders, we have a responsibility to intervene when we can in order to help de-escalate potentially violent situations. It can be an overwhelming feeling to have this responsibility. But as we make strides to teach everyone (not just men) not to rape, we have to be ok with this extra responsibility for now. In spite of (and because of) what others do, we have a responsibility to look out for others and intervene when appropriate and possible. To that end, bystander intervention is a powerful tool that empowers whole communities to help end sexual violence. RGV College encourages bystanders to intervene whenever safety possible. **Safety and reducing crime is part of everyone's duty.**

Sexual Harassment

Sexual harassment is bullying or coercion of a sexual nature, or the unwelcome or inappropriate promise of rewards in exchange for sexual favors. In most modern legal contexts, sexual harassment is illegal. As defined by the US Equal Employment Opportunity Commission (EEOC), “It is unlawful to harass a person (an applicant or employee) because of that person’s sex”. Harassment can include “sexual harassment” or unwelcome sexual advances, requests for sexual favors, and other verbal or physical harassment of a sexual nature. The legal definition of sexual harassment varies by jurisdiction.

Where laws surrounding sexual harassment exist, they generally do not prohibit simple teasing, offhand comments, or minor isolated incidents. In the workplace, harassment may be considered illegal when it is so frequent or severe that it creates a hostile or offensive work environment or when it results in an adverse employment decision (such as the victim being fired or demoted, or when the victim decides to quit the job). The legal and social understanding of sexual harassment, however, varies by culture.

In the context of US employment, the harasser can be the victim’s supervisor, a supervisor in another area, a co-worker, or someone who is not an employee of the employer, such as a client or customer, and harassers or victims can be of any sex or gender.

It includes a range of actions from mild transgressions to sexual abuse or sexual assault. Sexual harassment is a form of illegal employment discrimination in many countries, and is a form of abuse (sexual and psychological) and bullying. For many businesses and other organizations, preventing sexual harassment, and defending employees from sexual harassment charges, has become key goals of legal decision-making.

Sexual Assault

Sexual assault is any involuntary sexual act in which a person is coerced or physically forced to engage against their will, or any non-consensual sexual touching of a person. Sexual assault is a form of sexual violence, and it includes rape (such as forced vaginal, anal or oral penetration or drug facilitated sexual assault), groping, forced kissing, child sexual abuse, or the torture of the person in a sexual manner.

In legal terms, sexual assault is a statutory offense in various jurisdictions, including the United States, Canada, England and Wales, Ireland, and Scotland. The legal definition of the crime of sexual assault is determined by each jurisdiction. Specific legal jurisdictions and research often use highly technical or detailed definitions of the term. In some places, such as New South Wales, the crime of sexual assault has replaced the traditional crime of rape and is being defined as non-consensual penetrative sex. By contrast, in other jurisdictions, the crime deals with non-penetrative sexual contact.

Penalties – A sexual assault is typically a second degree felony. This carries a sentence of two to twenty years in a state prison and/or a fine of up to \$10,000. However, this crime may be elevated to a first degree felony if the victim was a person who the defendant was prohibited from marrying or was prohibited from living under the appearance of being married to the victim. A first degree felony in Texas is punishable by five to ninety-nine years in a state prison and/or a fine of up to \$10,000.

Domestic Violence

Domestic violence (also **domestic abuse**, **spousal abuse**, **intimate partner violence**, **battering**, or **family violence**) is a pattern of behavior which involves [violence](#) or other [abuse](#) by one person against another in a domestic setting, such as in [marriage](#) or [cohabitation](#). [Intimate partner violence](#) (IPV) is violence by a [spouse](#) or partner in an [intimate relationship](#) against the other spouse or partner. Domestic violence can take place in [heterosexual](#) and [same-sex](#) family relationships, and can involve violence against children in the family or, in some U.S. states, violence against a roommate. It also includes violence committed by children toward either parent and other [siblings](#).

Domestic violence can take a number of forms, including [physical](#), [verbal](#), [emotional](#), [economic](#), [religious](#), and [sexual abuse](#), which can range from subtle, coercive forms to [marital rape](#) and to violent physical abuse such as [female genital mutilation](#) and [acid throwing](#) that results in [disfigurement](#) or death. Domestic murders include [stoning](#), [bride burning](#), [honor killings](#), and [dowry deaths](#).

Domestic violence affects men, women, and children. In the United States, 35.6% of women and 28.5% of men have experienced some form of domestic violence (including rape, physical violence, or stalking) by an intimate partner in their lifetime. Globally, however, a wife or female partner is more commonly the victim of such violence. In some countries, particularly where there has been actual, or

suspected [infidelity](#) by female partners, wife-beating is seen as justified by the majority of the population, and may be codified into law. Recent research has also shown there to be a direct and significant [correlation](#) between a country's level of [gender equality](#), and actual rates of domestic violence. Both partners may also engage in abusive or violent behavior, or the victim may act in self-defense or retaliation. Whereas women who experience domestic violence, at least in the developed world, are often openly encouraged to report it to the authorities, it has been argued that [domestic violence against men](#) is most often unreported because of social norms and pressure against such reporting; those that do often face [social stigma](#) regarding their perceived lack of [machismo](#) and other denigrations of their [masculinity](#).

Domestic violence occurs when the abuser believes that abuse is acceptable, justified, or unlikely to be reported. It may produce [intergenerational cycles of abuse](#) in children and other family members, who may feel that such violence is acceptable or condoned. Awareness, perception, definition and documentation of domestic violence differs widely from country to country. In abusive relationships, there may be a [cycle of abuse](#) during which tensions rise and an act of violence is committed, followed by a period of reconciliation and calm. Victims of domestic violence may be trapped in domestic violent situations through isolation, [power and control](#), cultural acceptance, lack of financial resources, [fear, shame](#), or to protect children. As a result of abuse, victims may experience physical disabilities, chronic health problems, mental illness, limited finances, and poor ability to create healthy relationships. Victims may experience psychological problems, such as [post-traumatic stress disorder](#). Children who live in a household with violence often show psychological problems from an early age, such as dysregulated aggression which may later contribute to continuing the legacy of abuse when they reach adulthood. Domestic violence often happens in the context of [forced](#) or [child marriage](#).

Stalking

Legal definitions of stalking differ from one jurisdiction to another; a good working definition of stalking is **a course of conduct directed at a specific person that would cause a reasonable person to feel fear.**

Stalking is serious, often violent and can escalate over time. Stalking occurrences of two or more instances are considered reportable.

A stalker can be someone you know well or not at all. Most have dated or been involved with the people they stalk. Most stalking cases involve men stalking women, but men do stalk men, women do stalk women and women do stalk men.

How do I know if I'm being stalked?

The stalker may, on more than one occasion:

1. Follow the victim and/or victim's family or household members, or
2. Vandalize the victim's property, or
3. Inflict damage to property--perhaps by vandalizing the car, harming a pet or breaking windows at the victim's home, or
4. Make threatening calls or send unwanted gifts, letters, cards, e-mails or threatening mail, or
5. Drive by, or park near the victim's school, home, office, and other places familiar to the victim, or
6. Monitor your phone calls or computer use, or
7. Use technology, like hidden cameras or GPS to track where you go, or
8. Threaten to hurt you, your family, friends, or pets, or

9. Find out about you by using public records or online search services, hiring investigators, going through your garbage or contacting your friends, family, neighbors, or co-workers, or
10. Posting information or spreading rumors about you in social media, public places or by word of mouth, or
11. Other actions that may make you feel controlled, tracked or frightened.

You are not to blame for a stalker's behavior.

Safety Precautions

The following suggestions are examples of things you can do to lessen your risk of being a victim of a violent crime.

Remember:

You are never to blame for a crime that was committed against you.

Strategies you can use to minimize risk of sexual assault include:

- ✓ **Trust your gut instinct.** If a situation doesn't feel right, don't worry about offending someone, just leave.
- ✓ **Notice when someone doesn't respect your boundaries.** Don't be afraid to assert your right to have your boundaries respected.
- ✓ **Most perpetrators of sexual violence will look for vulnerable targets:** appear to not be aware of their surroundings, under the influence of alcohol or drugs, isolated from their friends, etc.
- ✓ **Control access to your home or car by locking your doors and closing windows if they provide easy access.**

- ✓ **Travel in groups, when possible.**
- ✓ **Don't be afraid to ask for help in situations where you feel unsafe:** ask for an escort to your car, tell your friends you want to leave the party, ask friends to stay with you, etc.

Bystander Intervention Program

The mission of the RGV College An Institute of Higher Learning Bystander Intervention Program is to provide education and awareness to the students, faculty and staff regarding sexual assault, domestic violence, dating violence and stalking as well as to promote active bystanders in order to prevent these crimes. RGV College is committed to fostering an environment in which all members of our community – both on campus and off, including visitors – are safe, secure and free from sexual misconduct of any form. The RGV College Bystander Intervention Program will accomplish this by facilitating ongoing classes, workshops, trainings, presentations and events for student, faculty and staff, regardless of ability, ethnicity, race, gender expression or identity.

Bystander Intervention Philosophy and Strategies

Bystander Intervention is a philosophy and strategy for prevention of various types of violence, including bullying, sexual harassment, sexual assault, and intimate partner violence.

The best way bystanders can assist in creating an empowering climate free of interpersonal violence is to diffuse the problem behaviors before they escalate.

- ✓ Educate yourself about interpersonal violence AND share this information with friends
- ✓ Confront friends who make excuses for other people's abusive behavior
- ✓ Speak up against racist, sexist, and homophobic jokes or remarks

Tips for Intervening

In a situation potentially involving sexual assault, relationship violence, or stalking:

- ✓ Approach everyone as a friend
- ✓ Do not be antagonistic
- ✓ Avoid using violence
- ✓ Be honest and direct whenever possible
- ✓ Recruit help if necessary
- ✓ Keep yourself safe
- ✓ If things get out of hand or become too serious, contact the police

The steps listed below will provide additional guidance that is helpful to identify the different intervene stages:

STEP ONE: *Notice when a situation can lead into violence*

While some situations are significantly violent in nature and easily noticeable, many other situations are better characterized as problematic or high-risk behaviors that are likely to escalate to violence, including: offensive comments, possessiveness, extreme jealousy and aggression. Sometimes, a person's gut instinct or intuition can be the best cue that violence is about to occur.

STEP TWO: *Identify when it's appropriate to intervene*

At the point when there is enough information to interpret a situation as dangerous, because it appears to be escalating, or it does not appear the behavior will stop on its own, bystanders tend to feel a sense of urgency and recognize that intervention is necessary. The actual timing for the intervention (the "when") can vary among individuals and the seriousness of the situation.

STEP THREE: *Recognize personal responsibility for intervention*

It can be easy to assume that others will intervene so you don't have to, particularly, if other individuals or school officials are in charge of keeping the institution safe, e.g. security guard, school official, etc. We are more likely to recognize the situation as requiring our help if: **1)** no one else is around; or **2)** we can relate to the issue on a personal level (our friend/family member is in danger, we would want to help if we were in that position; we understand impact that violence can have on survivors).

STEP FOUR: *Know how to intervene*

Knowing how to intervene safely and comfortably, improves our willingness to intervene. This step involved acquiring skills and developing strategies that lead to effective intervention.

STEP FIVE: *Take action to intervene*

Bystander intervention can take a variety of forms and techniques that are available to fit any personality style and comfort level:

- **Distract** – Create a distraction or redirect the focus of either party to ensure he/she can get out of the situation. If it is appropriate, use humor or an excuse to divert the attention of the perpetrator, creating an opportunity to free the potential victim from the situation.
- **Direct** – Confront the harmful behavior directly, so the potential victim is empowered to leave the situation or the perpetrator can make the choice to stop. This can include stepping in to separate the individuals and using assertive language.

The school may impose sanctions, up to and including expulsion from the institution, following a final determination of a disciplinary proceeding involving alleged sexual assault or other sexual offense. Alleged victims have the option to change their academic situations after an alleged sexual assault, if such changes are reasonably available.

Disciplinary proceedings and hearings are handled by officials who receive annual training on the issues related to domestic violence, dating violence, sexual assault, stalking and how to conduct a fair and impartial investigation and hearing process that protects the safety of victims and promotes accountability.

Both the accuser and accused have the same opportunities to have others present during an institutional disciplinary hearing, including the opportunity to be accompanied to any related meeting or proceeding by an advisor of their choice, nevertheless, one person must be appointed by both parties to speak and answer questions pertaining to the hearing.

A hearing will be scheduled within ten (10) business days. Evidence provided such as police reports, recording of the crime, text messages, social media or emails may be used to support the report of crime. Witnesses may be present at the time of the hearing.

The results of the institutional hearing are final and without opportunity for an appeal. Results of final proceedings will be made available within ten (10) business days from the last day of the institutional disciplinary hearing.

Upon the final determination, any information about the accused and accuser is kept confidential, to the extent permissible by law.

Reasonable options and assistance are made available for changing academic, living, transportation and working situation, if so requested by the victim.

Drug-Free Workplace and Alcohol Policy

In accordance with the requirements of the Drug-Free Schools and Communities Act of 1989 (Public Law 101-226), and the Drug-Free Workplace Act of 1988 (Public Law 101-690), our school provides all students and employees with the following information concerning school policies and the consequences of the manufacture, distribution, possession, or use of illicit drugs or alcohol on an annual basis.

Students and employees are prohibited from the unlawfully manufacturing, distributing, possessing, or using illicit drugs or alcohol while on school property or participating in any school activity. Violation of this policy will subject students or employees to disciplinary action up to and including expulsion or termination from employment. In addition, violation may result in local, state, and and/or federal criminal charges.

Legal sanctions under local, state, and federal laws may include:

- Suspension, revocation, or denial of a driver's license
- Property seizure
- Mandated community service
- Felony conviction that may result in 20-50 years imprisonment at hard labor without benefit of parole
- Monetary fines

In addition to local and state authorities, the federal government have four agencies (the Drug Enforcement Agency, U.S. Customs Services, Federal Bureau of Investigation, and the U.S. Coast Guard) engaged in combating illicit drugs. One should be aware that:

- It is a crime to hold someone else's illicit drugs
- It is a crime to sell fake "dope"
- It is a crime for being in a house where people are using illicit drugs, even if you are not using them
- It is a crime if drugs are in your locker, car, purse, or house which is considered "constructive possession"

Drug abuse, which can affect one's physical and emotional health and social life, is the utilization of natural and/or synthetic chemical substances for non-medical reasons to affect the body and its processes, the mind and nervous system and behavior. Drugs can be highly addictive and injurious to the body. Among the manifestations may be loss of sense of responsibility and coordination, restlessness, irritability, anxiety, paranoia, depression, acting slow-moving, inattentiveness, loss of appetite, sexual indifference, coma, convulsions, and death.

There are classic danger signals that could be indicative of drug use. These danger signals include:

- Abrupt changes in mood or attitude
- Continuing slump at work or school
- Continuing resistance to discipline at work or school
- Cannot get along with family or friends
- Unusual temper flare-ups

- Increased borrowing of money
- Heightened secrecy
- A complete new set of friends

Information regarding the effects of commonly abused drugs may be found on the internet at www.nida.nih.gov/DrugsofAbuse.html.

Drug and Alcohol Prevention Information

Drug and alcohol abuse education programs are offered by local community agencies. The school will post information about such education programs in the Student Lounge and Resource Area.

While care must be taken to ensure that a person is not wrongly accused of drug use, it is recommended that anyone who notes danger signals in either a student or employee contact the College President's Office. If it is determined by the College President that a student or employee is in need of assistance to overcome a drugs problem, he/she may be counseled on the need to seek assistance. The cost of such assistance or treatment will be the responsibility of the student or employee. Records of such counseling will remain confidential.

In certain instances, students and employees may be referred to counseling and/or a substance abuse help center. If such a referral is made, continued enrollment or employment is contingent upon attendance and successful completion of any prescribed counseling or treatment. Students or employees who are seeking treatment for a substance abuse problem may contact the College President's Office. Confidentiality will be maintained. In addition, students or employees who believe they have a substance abuse problem may find sources of treatment or advice by referring to the section of the local telephone book headed "Drug Abuse & Addiction Information and Treatment."
